

Team_02_Final_Submission contains three zipped directories named Team_02_M2_D2_ETL_Project_10200-Hytham, Team_02_M2_D2_ETL_Project_10700-Jon and Team_02_M2_D2_ETL_Project_12200_John. Each of these directories contain the solutions for the PRODUCTS, DEALER and SALES_ORG dimensions of the Star_Schema database, respectively. The subdirectory of Team_02_M2_D1_Dimension_Mapping_metadata contains 10 PDF's of the dimensions of the Star_Schema database. As well, there are multiple xlsx files in the support files subdirectory of Team_02_M2_D1_Dimension_Mapping_metadata directory. All the SQL files used throughout the project are in the Team_02_M2_Other_Support_Files subdirectory. All the SQL files have a concatenated initial for the team member to whom they belong. This helped us differentiate between the various numberings. As well the word documents for the coversheet and readme are located there. Moreover, there are two pdf files of the Cover Sheet and the ReadMe.

The submission was a zip of the bare repository named "Team-02_10700-Jon.git"

The password for Team_02 is 2020_Fact_02.
